Subject Index Volume 66

Active fault system
Inland earthquake; Earthquake disaster; Stress change; Risk assessment 143
Agglomerate
Fuzzy logic; Membership function; Predictive model; Tuff; Uniaxial compressive strength 39
Aleatory
Epistematic; Uncertainty; Probability; Earthquakes; Seismic hazards; Ironium 157
Alluvium
Bhuj, India; Dams; Earthquake; Foundations; Soil liquefaction; Kachchh 163
Anisotropic hydraulic conductivity
Three-dimensional fracture network; Fracture length; DFN model; Stereographic net 127
Anisotropy
Yielding; Microstructure; Consolidation; Clay; SEM image 201
Argillaceous formation
Mont Terri project; Opalinus Clay; Excavation disturbed zone (EDZ); Network of unloading fractures; Pneumatic and hydrogeological testing; Fracture impregnation; Overcoring 19

Bhuj, India
Dams; Earthquake; Alluvium; Foundations; Soil liquefaction; Kachchh 163
Blind zone
Sampling bias; Discontinuity orientation; Linear sampling technique 99

Carbonate soils
Engineering behaviour; Classification systems; Impermeable core; Earth-filled dams; San Clemente Dam (Granada, Spain) 287
Case histories
Excavations; Site investigation; Grouting; Magnesian Limestone; Groundwater control 1
Cave
Lava; Collapse; Ground stability; Highways 53
Classification systems
Carbonate soils; Engineering behaviour; Impermeable core; Earth-filled dams; San Clemente Dam (Granada, Spain) 287
Clay
Anisotropy; Yielding; Microstructure; Consolidation; SEM image 201
Collapse
Lava; Cave; Ground stability; Highways 53
Consolidation
Anisotropy; Yielding; Microstructure; Clay; SEM image 201

Dam
Tabarak Abad; Iran; Site investigation 237
Volcanic rocks; RMR; Q; GSI; Modulus of elasticity 275
Dams
Bhuj, India; Earthquake; Alluvium; Foundations; Soil liquefaction; Kachchh 163
Debris flow
Watershed; Geographic information system; Hazard assessment 303
Deterministic seismic hazard analysis
Probabilistic seismic hazard analysis; Earthquakes 299
DFN model
Three-dimensional fracture network; Anisotropic hydraulic conductivity; Fracture length; Stereographic net 127
Discontinuity orientation
Sampling bias; Linear sampling technique; Blind zone 99
Disc-type specimen
Fracture toughness; Mixed mode; Fracture envelope 79

Earth-filled dams
Carbonate soils; Engineering behaviour; Classification systems; Impermeable core; San Clemente Dam (Granada, Spain) 287

Earthquake
Bhuj, India; Dams; Alluvium; Foundations; Soil liquefaction; Kachchh 163
Earthquake disaster
Inland earthquake; Stress change; Risk assessment; Active fault system 143
Earthquakes
Epistematic; Aleatory; Uncertainty; Probability; Seismic hazards; Ironium 157
Probabilistic seismic hazard analysis; Deterministic seismic hazard analysis 299
Engineering behaviour
Carbonate soils; Classification systems; Impermeable core; Earth-filled dams; San Clemente Dam (Granada, Spain) 287
Epistematic
Aleatory; Uncertainty; Probability; Earthquakes; Seismic hazards; Ironium 157
Excavation disturbed zone (EDZ)
Mont Terri project; Argillaceous formation; Opalinus Clay; Network of unloading fractures; Pneumatic and hydrogeological testing; Fracture impregnation; Overcoring 19
Excavations
Case histories; Site investigation; Grouting; Magnesian Limestone; Groundwater control 1

Flood hazard potential
Subsidence rates; Po Plain, Italy; Neotectonics; Palaeowaters 245
Fluidization
Landslide; Flume studies; Pore-water pressure 65
Flume studies
Landslide; Fluidization; Pore-water pressure 65
Fluorescent approach
Fracturing process; Triaxial compression test; Inada granite; Small-scale cracking 261
Foundations
Bhuj, India; Dams; Earthquake; Alluvium; Soil liquefaction; Kachchh 163
Fractal scaling
Interlayer shear zone; Particle-size distribution; Geological process 225
Fracture envelope
Fracture toughness; Disc-type specimen; Mixed mode 79
Fracture impregnation
Mont Terri project; Argillaceous formation; Opalinus Clay; Excavation disturbed zone (EDZ); Network of unloading fractures; Pneumatic and hydrogeological testing; Overcoring 19
Fracture length
Three-dimensional fracture network; Anisotropic hydraulic conductivity; DFN model; Stereographic net 127
Fracture toughness
Disc-type specimen; Mixed mode; Fracture envelope 79
Fracturing process
Triaxial compression test; Inada granite; Small-scale cracking; Fluorescent approach 261
Fuzzy logic
Agglomerate; Membership function; Predictive model; Tuff; Uniaxial compressive strength 39

Geographic information system
Debris flow; Watershed; Hazard assessment 303
Geological process
Interlayer shear zone; Particle-size distribution; Fractal scaling 225
Ground stability
Lava; Cave; Collapse; Highways 53
Groundwater control
Case histories; Excavations; Site investigation; Grouting; Magnesian Limestone 1
Grouting
Case histories; Excavations; Site investigation; Magnesian Limestone; Groundwater control 1
GSI
Dam; Volcanic rocks; RMR; Q; Modulus of elasticity 275
Gypsum
Young's modulus; Schmidt hardness; Unconfined compressive strength 215

Hazard assessment
Debris flow; Watershed; Geographic information system 303
Highways
Lava; Cave; Collapse; Ground stability 53

Ignimbrite
Pyroclastic flow; Vapor-phase crystallization; Weathering; Landslide 111
Impermeable core
Carbonate soils; Engineering behaviour; Classification systems; Earth-filled dams; San Clemente Dam (Granada, Spain) 287
Inada granite
Fracturing process; Triaxial compression test; Small-scale cracking; Fluorescent approach 261

Inland earthquake
Earthquake disaster; Stress change; Risk assessment; Active fault system 143
Interlayer shear zone
Particle-size distribution; Geological process; Fractal scaling 225
Iran
Tabarak Abad; Dam; Site investigation 237
Ironium
Epistematic; Aleatory; Uncertainty; Probability; Earthquakes; Seismic hazards 157

Kachchh
Bhuj, India; Dams; Earthquake; Alluvium; Foundations; Soil liquefaction 163

Landslide
Fluidization; Flume studies; Pore-water pressure 65
Ignimbrite; Pyroclastic flow; Vapor-phase crystallization; Weathering 111
Lava
Cave; Collapse; Ground stability; Highways 53
Linear sampling technique
Sampling bias; Discontinuity orientation; Blind zone 99

Magnesian Limestone
Case histories; Excavations; Site investigation; Grouting; Groundwater control 1
Membership function
Agglomerate; Fuzzy logic; Predictive model; Tuff; Uniaxial compressive strength 39
Microstructure
Anisotropy; Yielding; Consolidation; Clay; SEM image 201
Mixed mode
Fracture toughness; Disc-type specimen; Fracture envelope 79
Modulus of elasticity
Dam; Volcanic rocks; RMR; *Q*; GSI 275
Mont Terri project
Argillaceous formation; Opalinus Clay; Excavation disturbed zone (EDZ); Network of unloading fractures; Pneumatic and hydrogeological testing; Fracture impregnation; Overcoring 19

Neotectonics
Subsidence rates; Po Plain, Italy; Flood hazard potential; Palaeowaters 245
Network of unloading fractures
Mont Terri project; Argillaceous formation; Opalinus Clay; Excavation disturbed zone (EDZ); Pneumatic and hydrogeological testing; Fracture impregnation; Overcoring 19

Opalinus Clay
Mont Terri project; Argillaceous formation; Excavation disturbed zone (EDZ); Network of unloading fractures; Pneumatic and hydrogeological testing; Fracture impregnation; Overcoring 19
Overcoring
Mont Terri project; Argillaceous formation; Opalinus Clay; Excavation disturbed zone (EDZ); Network of unloading fractures; Pneumatic and hydrogeological testing; Fracture impregnation 19

Palaeowaters
Subsidence rates; Po Plain, Italy; Flood hazard potential; Neotectonics 245
Particle-size distribution
Interlayer shear zone; Geological process; Fractal scaling 225
Pneumatic and hydrogeological testing
Mont Terri project; Argillaceous formation; Opalinus Clay; Excavation disturbed zone (EDZ); Network of unloading fractures; Fracture impregnation; Overcoring 19
Po Plain, Italy
Subsidence rates; Flood hazard potential; Neotectonics; Palaeowaters 245
Pore-water pressure
Landslide; Fluidization; Flume studies 65
Predictive model
Agglomerate; Fuzzy logic; Membership function; Tuff; Uniaxial compressive strength 39
Probabilistic seismic hazard analysis
Deterministic seismic hazard analysis; Earthquakes 299
Probability
Epistematic; Aleatory; Uncertainty; Earthquakes; Seismic hazards; Ironium 157
Pyroclastic flow
Ignimbrite; Vapor-phase crystallization; Weathering; Landslide 111

Q
Dam; Volcanic rocks; RMR; GSI; Modulus of elasticity 275

Risk assessment
Inland earthquake; Earthquake disaster; Stress change; Active fault system 143
RMR
Dam; Volcanic rocks; *Q*; GSI; Modulus of elasticity 275

Sampling bias
Discontinuity orientation; Linear sampling technique; Blind zone 99
San Clemente Dam (Granada, Spain)
Carbonate soils; Engineering behaviour; Classification systems; Impermeable core; Earth-filled dams 287
Schmidt hardness
Young's modulus; Gypsum; Unconfined compressive strength 215
Seismic hazards
Epistematic; Aleatory; Uncertainty; Probability; Earthquakes; Ironium 157
SEM image
Anisotropy; Yielding; Microstructure; Consolidation; Clay 201
Site investigation
Case histories; Excavations; Grouting; Magnesian Limestone; Groundwater control 1
Tabarak Abad; Iran; Dam 237
Small-scale cracking
Fracturing process; Triaxial compression test; Inada granite; Fluorescent approach 261
Soil liquefaction
Bhuj, India; Dams; Earthquake; Alluvium; Foundations; Kachchh 163
Stereographic net
Three-dimensional fracture network; Anisotropic hydraulic conductivity; Fracture length; DFN model 127
Stress change
Inland earthquake; Earthquake disaster; Risk assessment; Active fault system 143
Subsidence rates
Po Plain, Italy; Flood hazard potential; Neotectonics; Palaeowaters 245

Tabarak Abad
Iran; Dam; Site investigation 237
Three-dimensional fracture network
Anisotropic hydraulic conductivity; Fracture length; DFN model; Stereographic net 127
Triaxial compression test
Fracturing process; Inada granite; Small-scale cracking; Fluorescent approach 261
Tuff
Agglomerate; Fuzzy logic; Membership function; Predictive model; Uniaxial compressive strength 39

Uncertainty
Epistematic; Aleatory; Probability; Earthquakes; Seismic hazards; Ironium 157
Unconfined compressive strength
Young's modulus; Gypsum; Schmidt hardness 215
Uniaxial compressive strength
Agglomerate; Fuzzy logic; Membership function; Predictive model; Tuff 39

Vapor-phase crystallization
Ignimbrite; Pyroclastic flow; Weathering; Landslide 111
Volcanic rocks
Dam; RMR; *Q*; GSI; Modulus of elasticity 275

Watershed
Debris flow; Geographic information system; Hazard assessment 303
Weathering
Ignimbrite; Pyroclastic flow; Vapor-phase crystallization; Landslide 111

Yielding
Anisotropy; Microstructure; Consolidation; Clay; SEM image 201
Young's modulus
Gypsum; Schmidt hardness; Unconfined compressive strength 215
